I would give 6 stars if I could. My Son bought a gaming computer online and it was not working properly and brought it to Fix-it to get it looked at and not only did they fix it, they fixed it the same day! The people there were so friendly and professional. The technician came out and talked to us while we were there dropping off the system. Price was very fair. If you have any computer or phone needs, this is your place. Could not give a higher recommendation!

Greg and that whole crew are amazing! No one else is allowed to touch ANY of our electronics! My own Father is extremely picky and now he won't go anywhere else! He drives all the way from Paisley!

Unfortunately I have had the need to have phone or pc repairs done. I am glad that I found a place that was reliable, knowledgeable and reasonable in cost. Repairs to both my phone and pc was accomplished in a timely fashion. The tech even took time to come out and explain questions I had. I believe you will be pleased with Fixit Tek too.

First of would like to point out their hours of operation are way better than other cell phone repair shops! Thank you for opening earlier! Was able to get in and have my phone fixed before 10am to straight the day! Great shop keep up the great customer service!

Customer service is a plus, but I don't require much of that. I just usually need someone who can get the job done. That's what they do. Of course not every situation is instantly fixable but it's great to have an issue resolved in minutes. They know what they're doing.

Fixit Tek is awesome! I use them at my dental office for IT help. I also use them for my sons new gaming computer. It was custom build they made for my son! They also do my son's school shirts! Cheryl is amazing and always helpful! She goes above and beyond for her customers! Just just like Greg & Dakota! I highly recommend this company! They even fixed my sons switch lite! Outstanding service! Derek even stayed late to help me wrap up my order for Christmas! I appreciate that and my sons computer is working great and I'm so thankful for their attention and all their help!

Great staff...very helpful!
Kevin did the repairs on my machine and it works better than ever!
He took the time to answer all my questions and was very polite. He was very knowledgeable and also very patient too.

My phone was fried, there was a glitch and it wouldnt restart, it wouldnt do anything. FixITTek was suggested to me.
Happy Greg was very honest with the repair costs for my phone, and in the long run a new phone was what I needed. I ended up buying a new phone through best buy. I went back to FixIT Tech to get my SD and Sim card. I was going to take it to my cell phone carrier, but, Greg very willingly set up my new phone. Never charged me a dime for the diagnostic on my old phone or anything. Everyone I met there was friendly, helpful, and knowledgeable. Greg was awesome, knows his cell phones. Sorry it took me a few days to figure how to do the review Greg, but y'all are a "10"! I will recommend FixIT Tech to everyone I talk to. Thank you all so much!!

Alright y'all I gotta be honest with y'all this place is the only place anywhere round Marion County I've found that has ALL the qualities I look for in any type of business. They have awesome customer service and support, awesome staff that not only treat their products with full respect but they treat their employees and us customer's with full respect and look at everyone as family. And the prices are very good as well. I went in with a shattered and I mean shattered screen. After Greg ordered the new screen for me it arrived and was not the right one, not his fault, but he checked the whole store and wasn't able to find one like I needed. Then when the new one came not only did he repair my phone just like new but he went way above and beyond any expectations anyone could have from any business. I not only have an phone that they repaired like new but I'm also left purchasing a new laptop. I am DEFINITELY RECOMMENDING Fixit Tek to all y'all for all your computer and phone services that you may ever need. They're The Best. Thxs Fixit Tek and Thank You Greg
